1. [REDACTED] and [REDACTED] were in to discuss the personnel increase they were proposing in the 1957/1958 Budget for the Office of Communications. It amounted to [REDACTED] additional people for 1957 and an additional 8 in 1958, making a total of [REDACTED] above present authorization for 1958; a slight reduction, however, will be effected at headquarters. Told them to go ahead and put this in the Budget, although I felt that it would probably be reduced when the Director considered the over-all request.

2. The Office of Communications is having trouble supplying personnel to Project AQUATONE and [REDACTED] under special procedures for Project [REDACTED]. Asked [REDACTED] to staff this out; however, it makes sense to me.

3. We also discussed an expansion of the Records Center at [REDACTED] and I asked them to include a request for funds in their 1958 Budget for this purpose.

7. [REDACTED] and I discussed the relationship between CIA and NSA. They agreed with me that we should get out of the COMINT business if possible. I told them to go ahead and work along these lines.

8. Spent two hours with [REDACTED] discussing his recent trip. Must follow up on a statement which he made---having to do with support planning---allegedly made by General [REDACTED] at the recent war planners conference in [REDACTED]

25X1A6a

Apparently there is some trouble with the [REDACTED]. Must also follow up on this and consider his recall.
